

Dear Existing SIIS Member

We attach an updated version of the SIIS Membership Agreement, the terms of which are effective immediately. The updated Membership Agreement has been ratified by the Steering Committee and is designed to further clarify the rights and obligations of each Member and OTM in relation to SIIS and the other Members. The enclosed Membership Agreement incorporates the Bylaws and supersedes all earlier membership agreements between SIIS, OTM and you.

The key changes include:

1. Clarification that no Member is obliged to disclose any "Knowledge Sharing" to other Members or contribute to any Project IP, but any Member may do so on a voluntary basis;
2. Confirmation that:
 - (a) any disclosure of Knowledge Sharing made by a Member will not affect the disclosing Member's pre-existing intellectual property rights; and
 - (b) receiving Members must abide by confidentiality obligations in relation to any such disclosure.
3. A requirement for all new Members to attend an induction briefing during their first attendance at a SIIS meeting.
4. Terms which confirm that any Project IP will be owned by OTM on trust for the Members; and
5. Terms governing the rights of Members to use Knowledge Sharing and Project IP following the expiry or termination of their membership.

If you are a new Member, you are required to sign and return to OTM a copy of the SIIS Membership Agreement before we can permit you to attend a SIIS meeting.

If you are an existing Member, you will be deemed to have accepted the revised Membership Agreement on the earlier of the date when you submit to OTM an application to renew your membership together with the applicable fee or you first attend a SIIS meeting following the date of this letter.

We look forward to seeing you at the next SIIS event.

Yours sincerely

Paul Johnson
